INSTITUTIONAL EFFECTIVENESS NEWSLETTER

JANUARY 2020

ONE YEAR WITH JENZABAR

January 2020 marks one year since full Jenzabar implementation. Jenzabar has improved many procedures at PIU, including the following.

- Paper pay stubs have been replaced by digital pay stubs that are always available in the Employee Hub.
- Employees can easily track their PTO hours through the Employee Hub.
- Expense reports and purchase orders can be completed online.
- Blackboard now communicates with our SIS.
- Students and advisors have accurate knowledge of student progress.
- Courses can be connected to specific charges, which simplifies billing procedures.
- Admissions, Advising, Registration, Financial Aid, and Student Accounts are aligned.
- Faculty, staff, and students can easily access digital forms including graduation applications, degree changes, course withdrawals, and performance reviews.
- A retention module is being implemented this semester to identify at-risk students so that we can intervene before they drop out.

As we move forward, we anticipate further improvements, such as integrating Financial Aid software with J1.

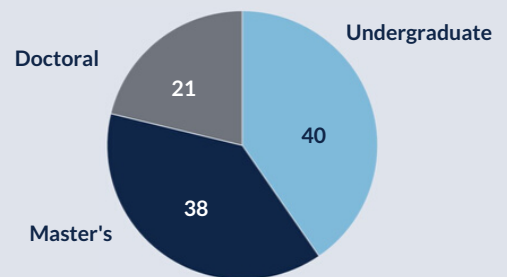

Mid-year performance reviews will be available via my.piedmontu next week and are due February 28.

STATISTIC OF THE MONTH

105 

transcript requests were processed by the Registrar's office in January.

The chart below shows the division of new students in Spring 2020.

The chart below shows our full-time equivalent enrollment for the past 5 fall terms.
